

**Field Studies Information Sheet – June 2018**

The Vancouver Fraser Port Authority is continuing field studies in June 2018 as part of ongoing environmental and technical work for the Roberts Bank Terminal 2 Project.

**Roberts Bank Terminal 2 Project**

The [Roberts Bank Terminal 2 Project](#) is a proposed new three-berth container terminal that would provide 2.4 million TEUs of additional container capacity annually. The Roberts Bank Terminal 2 Project is undergoing a federal environmental assessment by an independent review panel, under the *Canadian Environmental Assessment Act, 2012*, and requires other permits and authorizations before it can proceed. Please visit [www.portvancouver.com/RBT2](http://www.portvancouver.com/RBT2) for more information, including past consultation materials.

**Field Studies – June 2018**

An overview of field studies that will be taking place in June 2018 is below.

<b>Overview</b>
<b>Coastal Geomorphology</b>
Abiotic Parameters Study

Some field studies taking place in June require environmental authorizations and/or access to public and private land. Prior to starting any studies, the port authority will obtain any required permits and landowner permission before accessing private property.

The port authority has produced monthly field studies information sheets summarizing work planned during that month. Past updates regarding the Roberts Bank Terminal 2 Project are available at [www.portvancouver.com/RBT2](http://www.portvancouver.com/RBT2).

Study Name	Summary
<b>Coastal Geomorphology – Abiotic Parameters Study</b>  (continued from May 2018)	<p><u>Purpose:</u> To determine the physical conditions (e.g., temperature and salinity) influencing biofilm presence and distribution at Roberts Bank.</p> <p><u>Study Area:</u> Roberts Bank in the upper and mid intertidal zones north of the Roberts Bank causeway.</p> <p><u>Methods:</u> Water quality measurements (conductivity, temperature and depth) will be recorded in the mid and upper intertidal zones of Roberts Bank.</p> <p><u>Timing:</u> This study will continue in June 2018.</p>
